

The new standard for portable codecs

IQOYA TALK is a portable IP audio codec dedicated to live remote broadcasting for Radio and TV. Designed with an intuitive user-interface as simple as a smartphone, IQOYA TALK allows remote reporters to perform all the key actions in just 2 clicks. Live reporting or commentary can be performed, as well as studio quality interviews for up to 4 journalists and guests, with a user experience designed for the non technicals. Audio content is streamed through a large number of wired or wireless 'last mile' connections.

Key points

- ▶ Large number of built-in connectivities: 2 Ethernet, WiFi, 2x 3G/LTE/4G
- ▶ Up to 8H autonomy achieved by two independent batteries
- ▶ Quick access to all relevant on-field settings

Usages

Remote live operations requiring high reliability transmission & broadcast audio quality

- ▶ Interviews
- ▶ Events
- ▶ Sports commentaries
- ▶ Talk shows

AUDIO

3 Mic inputs, Microphone / Line level adjustment
48 V phantom power

4 headphone outputs, individual mix bus on each output

1 analog or AES/EBU stereo input
Line level

1 mono or stereo program on independent IP connections
2 Talkback channels for users 1 and 2

11 input / 10 output embedded mixer

CONNECTIVITY

2 Gigabit Ethernet ports for EBU/ACIP and AES67 audio streams

2 integrated 4G / LTE modules, approved in Europe, USA and Asia

1 integrated dual band wifi / bluetooth module

3 GPIOs controllable by GUI

2 USB A ports for files
1 USB C port for streaming audio to PC

ENCODING AND STREAMING

Dual streaming / Configurable FEC

Encoding : G711/G722, MPEG-1/2 Layer II
MPEG-4 AAC-LC, AAC-LD/ELD, HE-AACv1/v2, Opus

Compliant with ACIP (EBU Tech 3326 and Tech 3368)

GENERAL

Lockable external power supply 12-24 V DC

LxWxH: 200 x 216 x 90 mm (7⁷/₈ x 8¹/₂ x 3³⁵/₆₄)

Weight : 2,3 Kg (5 lb) incl. 1 battery

Operating temperature 0-45 ° C
